Driving Directions to Argonne and location of NE in Argonne

1. Driving directions to Argonne from the two major Chicago airports
2. Highways close to Argonne
3. Highway exits and roads to Argonne gates
4. Argonne gates and location of Building 360 (Home of former Technology Development Division) and Building 208 (Home of former Reactor Analysis & Engineering Division)

1. Driving directions to Argonne from the two major Chicago airports (Figure 1)

From O'Hare International Airport

When leaving the airport area, take I-190 East towards Chicago. Take the tollway I-294 South towards Indiana. Take I-55 South towards St. Louis. Take the exit South Cass Ave and make a right turn onto Northgate Road at the Argonne sign. Driving time: appr. 30 minutes.

From Midway Airport

When leaving the airport area, make a left turn onto Cicero Ave North. Make a left turn onto I-55 South towards St. Louis. Take the exit South Cass Ave and make a right turn onto Northgate Road at the Argonne sign. Driving time: appr. 20 minutes.

From Chicago

Take I-55 South towards St. Louis. Take the exit South Cass Ave and make a right turn onto Northgate Road at the Argonne sign. Driving time: appr. 45 minutes.

2. Highways close to Argonne

Figure 1 shows the suburbs surrounding Argonne National Laboratory and the highways leading to the Laboratory. Interstate 55 (Stevenson) is located just north of Argonne and the exit South Cass Ave is just north of Northgate Road, the street leading directly to Argonne's main gate.

3. Highway Exits and roads to Argonne Gates

Figure 2 shows the streets and highways surrounding Argonne National Laboratory and the entry gates to the Laboratory. Interstate 55 (Stevenson) is located just north of Argonne and the exit South Cass Ave is just north of Northgate Road, the street leading directly to Argonne's main gate. The exit South Lemont Road is located just north of Westgate Road and may be used to enter Argonne through the West Gate (limited access for visitors).

4. Argonne Gates and Building Location

Figure 2 shows the location within Argonne National Laboratory of Building 360 (Home of the former Technology Development Division), Building 208 (Home of the former Reactor Analysis & Engineering Division) and other buildings where NE is present.

Location of Building 360

After entering Argonne through the Main Gate on Northgate Road, make an immediate left turn to Outer Circle Road. Follow Outer Circle Road and then turn left on Southwood Drive. Take then once more left to Rock Drive. Building 360 will be on the right side of the road.

Location of Building 208

After entering Argonne through the Main Gate on Northgate Road, make an immediate right turn to stay on Northgate Road. Northgate Road will curve left and end at Inner Circle Road. Turn right (west) onto Inner Circle Road. By continuing straight, Inner Circle Road turns into West Gate Road. Building 208 will be on the right side of the road.
