

Intermediate Voltage Electron Microscopy (IVEM) Facility

User Commitment

This proposal is for access to and use of the facilities and resources available in the IVEM-Tandem Facility at Argonne National Laboratory. Users who are supported by grants from DOE-NE or DOE-SC and who carry out nonproprietary and publicly-disseminated work under this agreement will not be charged a daily fee. Nonproprietary work of users supported by other sponsors will be charged \$2K/day, about one half full cost recovery. Users who carry out proprietary work under this agreement will be charged a daily fee that is based on full cost recovery.

This proposal will remain active for a maximum period of two years following the approval date. Following these experiments, a research summary and progress report plus reprints and the full citation information for any publications or presentations must be provided. A requirement of this agreement is that users acknowledge all work carried out in the IVEM in all publications. Any acknowledgment must contain the following words: **“The electron microscopy with in situ ion irradiation was accomplished at Argonne National Laboratory at the IVEM-Tandem Facility, a U.S. Department of Energy Facility funded by the DOE Office of Nuclear Energy, operated under Contract No. DE-AC02-06CH11357 by UChicago Argonne, LLC.”**

IVEM staff frequently make major contributions to the research of IVEM users through planning and execution of experiments, analysis and interpretation of data, or through collaboration and assistance in the research. It is expected that IVEM staff members will be appropriately acknowledged and/or included as co-authors. Users agree to follow all written User Guides, Standard Operating Procedures, posted notices, and verbal instructions of IVEM staff regarding laboratory practices and instrument operation. In any situation in which a user feels uncertain about the safe and appropriate operation of an instrument, the user must consult with IVEM staff. Failure to follow appropriate procedures and instructions may result in termination of user privileges. Users will return facilities and equipment utilized in their original condition except for normal wear and tear. Any costs to bring the equipment back to original condition except for normal wear and tear (i.e., due to misuse or abuse, failure of user-owned equipment, etc.) shall be covered by the user.
