## Getting to Know Nuclear Energy: The Past, Present & Future

Argonne National Laboratory was founded on the peaceful uses of nuclear energy and has pioneered many of the technologies in use today. Argonne's Roger Blomquist will discuss the history of nuclear energy, advanced reactor designs and future technologies, all aimed at the safe, sustainable, and secure use of nuclear power worldwide.

The event will take place at the Argonne Advanced Photon Source Auditorium and will include light refreshments and a poster session preceding the lecture.

**Interested in learning more about  
the fascinating research taking place  
at Argonne National Laboratory?**

Join us for Argonne OutLoud, a series of evening lectures highlighting our world-renowned experts and cutting-edge science & engineering.

For more information, please call 630-252-1789  
or send email to [outloud@anl.gov](mailto:outloud@anl.gov).
