Guidelines for Authors on the Preparation and Presentation of Posters

GENERAL

Information on a poster should attract attention. It should therefore be limited to the most important facts only.

PREPARATION OF A POSTER

Each poster author will be assigned space on a poster board. The size of the boards is 4 feet high and 8 feet wide, or 122 cm high by 243 cm wide. There will be two posters per board, therefore, the recommended poster size is A0, portrait orientation (118.9 cm x 84.1 cm, or 46.8 in x 33.1 in).

All display material should be prepared in advance. Pins for mounting posters will be available at the meeting.

The top of the poster should display, in lettering not smaller than 3 cm in height, the following information:

- TITLE OF PRESENTATION
- NAMES OF AUTHORS and AFFILIATIONS

The text of the poster should be easily readable from a distance of 2 to 2.5 m. Machine typed characters are too small. Use heavy lettering at least 1 cm high.

The poster should be divided into:

Introduction
Method
Results
Conclusions

or an equivalent division. It is advisable to leave details and explanations for the face-to-face discussions.

PRESENTATION AT THE MEETING

Poster authors are kindly requested to be at their posters for discussion with interested participants during the relevant poster session, as indicated in the meeting program. Text and presentation should be in English.

The poster displays, located in the 350 Lounge, will be available for poster mounting beginning at 12:00 pm on Monday, October 14. Poster boards will be labeled with poster numbers as listed in the meeting program. The posters can remain up until noon on Wednesday, October 16.

PLEASE NOTE that the Gleacher Center does not have facilities available to print your poster onsite, so please make sure to bring your printed poster with you to the meeting.

Please contact the conference administrator, Brea Grischkat, at mmsnf@anl.gov with any questions.
